

SIVANATH SASTRI COLLEGE

ADMISSIONS 2021

SELECTION OF SUBJECTS BY STUDENTS WHO HAVE TAKEN ADMISSION (CBCS)

This is to notify all students who have taken admission with full payment of admission fees, that they are now being given the option of **selecting their Subjects within the Choice Based Credit System (CBCS)**. The CBCS subject selection option is now activated on the students' portal and shall remain active until further notice.

An email has also been sent to the students' registered email IDs informing them of the same.

In order to select their subjects, the students must first go through the **subject combinations being offered by the College for each Course**. These are available as PDF files. *The College will not be able to entertain any request for a subject combination that falls outside what is given in these documents. Requests to the Helpline of such a nature will not be entertained.*

Once the student has informed herself of the subjects available, she must click on the CBCS Subject Selection link and carefully go through the detailed instructions given in the PDF document. The link for subject selection is also given in the PDF document itself. *Depending on the subjects selected, additional admission fees may become due and they would have to be cleared immediately* in order to confirm the subjects and complete the process.

Subject Selection is a mandatory step without which students will not be allowed to attend classes of the Subjects they wish to study. Any loss of attendance resulting from non-selection of subjects within the applicable deadline (to be notified later) will be the responsibility of the student alone.

Subject Selection is final and students may not be allowed to change their subjects at a later point of time.

Please note that this applies only to those students who have taken admission within full payment of admission fees due at the time of merit-listing. Applicants who have not taken admission or are yet to be merit-listed cannot proceed with Subject Selection.
