PROJECT BRIEF

NEW ACADEMIC CAMPUS

The Consultant Architect shall be required to prepare a comprehensive Architectural Design of State-of-the-Art ACADEMIC campus to expand the University's continued mission for Teaching and Research.

A. Scope of the Project

The New Building will create spaces for standard, latest and advanced educational facilities for Students, Faculty and higher Scholars. It will also have a hostel facility for girls.

The selected Architect has to supply all design drawing document and also needs to provide required supervision and other supports to ensure timely completion.

B. Site

Development of this site needs to be undertaken in accordance with the overall Master plan of the campus and finalise the best positioning and architectural solution, with minimum space wastage and saving maximum open space.

The proposed site needs to accommodate finally Academic Block/ Blocks and Hostel Block/Blocks as per design conceptualised by the Architect along with multipurpose activities Overall surroundings and the building elevation needs to make a perfect balance with the surrounding.

The resulting design of this whole area needs to provide an excellent working environment to encourage high quality Teaching and Learning.

C. Preliminary Functional Brief:

Tentative Space distribution in New Academic Block is as follows:

1. Lecture room spaces: 40 capacities.

The structural grid may be developed to have flexibility to accommodate different room sizes as per the students' capacity

2. Lab/Research Spaces: UG, PG Lab; Research Lab
3. Faculty Offices:
4. Departmental Office / Meeting Room / Library/ Lounge etc.
5. Lecture Theatre or Auditorium / Seminar Room:

The building will include lecture theatres as follows:

- a) One large theatre, seating minimum 400+ people
- b) Three medium theatres, each seating 150-200 people, and

6. Remaining for Circulation & Services.
7. The hostel building requires providing accommodation for about 120 students.

The new building is expected to demonstrate an outstanding level of quality in relation to functional spaces of all of the disciplines and also will fulfil the aesthetics in all respect. It should demonstrate the best practices of Architecture, Engineering & Services.

D. Required Departments:

Tentative departments are as follows:

Arts U.G. Department:

- | | | |
