              2. Social change influences Education

## WALL MAGAZINE

During the academic year 2019-20, The Honours students from the three years/ semesters of the Department of Education, Sivanath Sastri College were encouraged to think and write on educational topics related to the current educational problems and prospects. This was their understanding of the subject outside their prescribed curriculum. The students put up a wall magazine "Educo" where they wrote on several topics and even illustrated to explain the different topics. The entire process reflected their concern for the subject in today's world. The Wall magazine was graced by our respected Principal and other department teachers and students. Here are some photos of their pictures for reference.

### "Educo"

- Published on 20/9/19 Topic Objectives of Education
- Published on 27/9 22 Topic " Learning to be"
