

Report on Departmental Excursion organized by Botany Department

Name of the venue: Narendrapur Ramakrishna Mission

Date of Excursion: 26.08.2019

No. of Staffs attended:5

No. of Students participating:5

Name of the students: Tanya Singh, Tanusree Naskar, Sumi Mondal, Isha Banerjee, Resala Taskeen

Topic covered: Field excursion for the study of local flora.

Report: According to Calcutta University syllabus a one day local excursion was organized by the Botany Dept. for the first year and second year students. The purpose of the excursion is to provide opportunity to explore and study the local flora. During the excursion students explored the local flora. Identification and collection of different plant materials were carried out by the students with the help of the accompanying faculty members. A proper documentation of the entire procedure was prepared by each student. Each student submitted a field report on the aforesaid excursion in the university practical examination. Students also prepared herbarium sheets of the collected specimens for submission in the university practical examination.
