

PROGRAMME: B.A. DEGREE COURSE (CBCS)
STATISTICS GENERAL

Programme Outcome

There is hardly any field in which statistics doesn't find its applications. Hence there is a continuous demand for statisticians almost in all the fields. Knowledge of different aspects of statistics thus becomes very crucial in the present scenario.

The present syllabus has been framed in such a way that after completion of B.Sc.(General) degree course in Statistics graduates will not only be statistically sound but will also be able to apply different commonly used statistical techniques to other fields. As they will possess both theoretical and practical knowledge, they can pursue their future career either in the core field or in the applied field of Statistics. Besides they can go for higher study too.
