

Report

Name of the Programme: Invited lecture on Research Methodology

Topic: Selection of Research Problem

Organizing Departments: Departments of Education, Geography and Economics of Sivanath Sastri College

Date: 28/04/2023

Venue: College Auditorium

Time: 9.30 a.m.

Resource person: Dr. Avijit Guha, Associate Professor, Ramakrishna Mission Sikshak Sikshan Kendra, Belur Math

Objective of the Programme: a) To give the students a comprehensive idea of the Research Methodology.

b) Specifically, to enable them to select Research Problem.

Brief Description: It was the 2nd lecture of the Lecture series. Previously, the students were introduced with review of literature as a step of research. In this lecture, Prof. Guha presented various case studies to make the subject comprehensible which were basically interdisciplinary in nature. The students were engaged to explore various life situations from which they can select research problems. It was very interesting and lively session as per the students' feedback.

Outcome: a) Students learnt about the steps of research

b) Learners became more confident when they had to prepare a Research Proposal as a part of the curriculum.

No of Students Participated: 55
