### 6. Governance, Leadership and Management

#### 6.1 State the Vision and Mission of the institution

Sivanath Sastri College was established as part of the Brahmo Samaj Movement for Education for women.

##### **Vision**

Impart liberal education for the empowerment of women. To integrate students with the society they live in. Inculcate in the students the compassion and understanding that liberal value-based education encourages. Promote commerce studies for women to make them self reliant and independent. Provide a platform for interaction among students from different socio-economic backgrounds.

##### **Mission**

It is the mission of the college *to promote the cause of education in the highest and widest sense to make that education- comprehending the training of the mind, heart and body, founded on a theistic basis- conducive to the good of man and glory of God.*

The principal goal of the college is to educate girls from a wide spectrum of society, equip them to face challenges of the professional world and the society as responsible human beings.

#### 6.2 Does the Institution have a Management Information System

Not yet but the on the basis of recommendation of the IQAC, the college is acquiring a customised Management Information System for students.

#### 6.3 Quality improvement strategies adopted by the institution for each of the following:

##### 6.3.1 Curriculum Development

The college has to follow the curriculum designed by the University of Calcutta but teachers regularly participate in workshops organised by the University and other bodies regarding curriculum development.

In addition each department develops its own academic calendar and tries to incorporate related contemporary issues to widen the intellectual horizon of the students.

### 6.3.2 Teaching and Learning

Quality improvement strategies adopted with respect to teaching and learning include:

- Departmental meetings at the beginning of each academic session to prepare a plan of action including allocation of syllabus, preparation of an academic calendar with tentative dates of internal examinations.
- Review of progress by the departments at regular intervals
- Regular use of audio-visual aids in the class rooms
- Remedial coaching/tutorial classes for students
- Organizing
  - student seminars /class presentations on different topics in the syllabi or related contemporary issues
  - invited lectures by eminent personalities in the respective fields
  - excursions and field trips for students

### 6.3.3 Examination and Evaluation

The qualifying examinations are held as per university schedule but the institution ensures quality performance by the students through a system of internal evaluation including:

- Mid-term and selection tests
- Class tests and tutorials
- Assignments
- Mock-tests before the final practical examinations

The evaluated answer scripts are shown to the students and if necessary parents are informed regarding their performance in the examination.

### 6.3.4 Research and Development

Teachers are encouraged to apply for research grants, engage in research work, attend workshops and seminars and publish regularly.

### 6.3.5 Library, ICT and physical infrastructure / instrumentation

The college is an institutional member of INFLIBNET since September, 2014 and all full time teachers have been provided with individual user id and password so that they can access the digital library. Students are able to access INFLIBNET from the library.

Bar coding of library books which commenced from March 2015 with Koha Library management software has been completed.

The management has provided laptops for all Honours departments

### 6.3.6 Human Resource Management

The aim of the college is to make optimum use of human resource available. The Governing Body is the apex body which manages the overall human resource development of the college.

In addition there are statutory bodies for human resource management of the college:

- The Teachers' Council and Non-Teaching Staff associations monitor the affairs of the teachers and the non teaching staff respectively.
- The Students' Union looks after student related issues

### 6.3.7 Faculty and Staff recruitment

Recruitment of teaching and non teaching staff is as per government rules.

Permanent full time teachers are recruited on the basis of West Bengal College Service Commission Act, 1978 (West Bengal Act LXII of 1978) and relevant Government orders, guided by an interim Order of the Supreme Court dated 02.04.1984. on the basis of this order a full time teacher is recruited out of a panel of three names sent by the West Bengal College Service Commission on the basis of an interview conducted by the Staff Selection Committee which includes among its members a subject expert nominated by the Calcutta University.

Contractual full time teachers and guest teachers are recruited by the college through interviews conducted by the Staff selection committee which includes a University expert /external subject expert following advertisements in daily newspapers.

Recruitment of ad hoc non-teaching staff is on the basis of interviews conducted by the Establishment Committee.

### 6.3.8 Industry Interaction / Collaboration

Nil

### 6.3.9 Admission of Students

Admission of students is as per government norms and on the basis of merit.

Admission is entirely on the basis of the results in the qualifying examination for all departments.

To ensure transparency submission of application, publication of Merit list, admission of selected candidates and payment of fees were done online through College website.

Pre Admission counselling of students was conducted by the Department of Geography.

### 6.4 Welfare schemes for

Teaching	Group insurance, Staff Credit Co-Operative Society, Provident Fund, Festival Advance.
Non teaching	Group insurance, Staff Credit Co-Operative Society, Staff Benevolent Fund, Provident Fund, Festival Advance.
Students	Medical centre, Free Studentship and Fee concession, Government Scholarships, Awards and Prizes.

### 7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

Online admission procedure was finalized as per university directives with the object of implementation during the academic session 2015-16 to ensure complete transparency in the admission process and to provide hassle-free admission for the interested candidates.

Feedback from students and parents was collected on all different aspects of the institution with the objective of identifying and addressing the strengths and weaknesses.

All departments were asked to maintain a departmental diary for recording progress in academic and other activities of the department.

All full time teachers are required to maintain a diary for self appraisal with the objective of keeping daily record of lectures delivered other activities and leave taken.

The Academic Subcommittee of the college prepared an action plan regarding academic matters of the institution and made a proposal for introducing some conceptual clarity based questions within the existing frame work of the university curricula for the internal college examinations.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

- Academic calendars and departmental diaries were prepared as aids to the teaching-learning processes.
- Seminars/invited lectures by external experts for the students were arranged by all departments.
- Student seminars/ presentations were organised by all departments.
- More frequent use of audio-visual aids/ICT in the class rooms.
- Two proposals were submitted to the UGC for National Level Seminars by the departments of Geography, Bengali and a third one jointly by the Departments of History, English, Political Science and Women's Studies. The proposals have been sanctioned by the UGC. The seminars are scheduled to be held within December 2016.
- Feedback response on different aspects of the institution was collected from the students and parents/guardians and analysed.
- The installation of the rainwater harvesting unit was completed.
- The NSS unit of the college organised different programmes in addition to the special camp.
- Extension activities including workshops on health issues, self defence and environment consciousness were organised for the students and staff.
- The training programme on health related issues in collaboration with Sramajibi Swasthya Udyog completed its second year. Twenty five students completed the training.
- The College offers psychological counselling to the students and a qualified counsellor visits the College on weekly basis. In the academic session 2015-16 the service commenced on and from September 2015 and a number of students benefited through such counselling.
- Various cultural activities were organised by the Cultural committee including a theatre workshop, inter college debate competition, intra-college cultural competitions and cultural programmes.
- The Annual Sports event and the Prize distribution were held on 05.12.2015 and 22.12.2015
- Seminar/workshop organised by the IQAC:
  - One day faculty development workshop on ***Innovations in teaching learning and evaluation*** on May 13, 2016.

7.3 Give two Best Practices of the institution (please see the format in the NAAC Self-study Manuals)

Annexure III Best practice I  
Best Practice II

7.4 Contribution to environmental awareness / protection

The installation of a rainwater harvesting unit has been completed in September 2015.

7.5 Whether environmental audit was conducted? Yes  No

*\* A green audit was conducted by DNV GL Business Assurance India Private Limited, Kolkata on October 2015 and the college has implemented majority of the recommendations made in the audit.*

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

**Strengths**

- Large, well planned building at a prime location
- Good academic ambience
- Quality faculty dedicated to their profession
- Efficient and sincere non teaching staff
- Active co-operation among all stake holders, management, faculty, non-teaching and technical staff, students, guardians and alumni.
- Providing education to students from all spheres of society at a comparatively low cost
- Above average academic performance of students in the Honours streams

**Weaknesses**

- Lack of space in the present premises
- Since the institution is a morning college which shares the premises with two other colleges, time is the most important constraint faced by the staff and students.
- A large number of full time posts are vacant due to retirement of the incumbents.
- Declining enrolment of students in B.Sc. General Stream due to limited number of science subject combinations offered by the college.
- Lack of a sufficiently large play ground for outdoor activities of the students.

**Opportunities**

- Introduction of post graduate and vocational courses
- Introduction of self financing add on courses preferably in collaboration with industries or probable employers
- Boost of research activities and collaboration with research institutes

**Threats/Challenges**

- Addressing the heterogeneity of students in terms of language and economic status
- Providing quality education and ensuring equity
- Attuning the Choice Based Credit System proposed by UGC
- Training students with skills which improve their employability in newer job markets such as data analytics, dynamic accounting and so on.
- Competition from private universities

## 8. Plans of institution for next year

- To introduce a Management Information System for students customised according to requirements of the institution
- To up- grade library facilities further and provide reprographic facilities in the library.
- To up- grade the computer lab
- Organise the three National level seminars sanctioned by the UGC
- To organize at least one quality enhancement seminar for faculty.
- The NSS unit will undertake different activities in the sphere of social responsibility
- To introduce self-defence course for students
- Introduction of statistics as a general course
- In view of the severe time and space constraint faced by the college, the management has been looking for a suitable plot of land for construction of a second campus.
- The endeavour has been successful and in 2015 the college has finally purchased a plot of land in the southern suburb of the city.
- Once the second campus is built, the college will be able to start new courses as well as provide hostel facilities for outstation students.
- In addition the management is also in the process of implementing a project for expansion of existing facilities that will create additional space.

## ANNEXURE II ANALYSIS OF STUDENT FEEDBACK ACADEMIC SESSION 2015-16

Feedback response from students is collected with the objective of improvement of the teaching learning process and addressing the shortcomings. The questionnaire used for this purpose is exhaustive and covers all aspects including teaching learning, learning resources, college infra structure, extracurricular activities as well individual and group relations within the institution. The following report presents a brief account of the general feedback collected online.

### Feedback regarding teaching learning

1. **Regularity of classes:** students appear to be satisfied with the regularity of classes since 93% of the students have awarded excellent to good grades for this criterion.
2. **Content of lecture:** Majority of the students have expressed the opinion that content of lectures varies from excellent to good.

3. **Use of innovative techniques of teaching:** About 32% of the students feel that there is excellent to very good use of innovative techniques while another 40% have stated that there is good use of such techniques.
4. **Availability of teachers:** The level of satisfaction with respect to this criterion appears to be high as well.

- Approachability of teachers:** 50% of the students have expressed a very high level of satisfaction with respect to approachability of teachers for academic and other guidance.
- Regularity in checking assignments:** Nearly one third of the students are highly satisfied in this regard while 40% are satisfied.

### Feedback regarding learning resources

This section includes feedback regarding library and laboratory facilities as well as audio-visual aids

- Use of audio-visual aids:** Students appear to be moderately satisfied regarding the use of audio-visual aids in the classroom. Only about 10% find the use very good while 50% have feel there is good use of audio-visual aids. It may be noted that about 9% are extremely dissatisfied in this respect.
- Laboratory facilities:** About one third of the students feel that laboratory facilities are fully used while nearly 45% feel that they are partly used and maintained.

3. Library Facilities: student's opinion regarding library holdings shows a moderate level of satisfaction. More than 60% of the students feel that there is adequate number of books available while 30% have expressed the opinion that library holdings are excellent. It may be noted that more than 80% of the students have expressed their opinion in favour of easy accessibility of library books.

### **Participation in extra-curricular activities**

Feedback analysis regarding students' participation in extra-curricular activities shows definite scope of improvement. More than 60% of the students participate either rarely or never in extracurricular activities. Only 14% of the students are take part in such activities frequently.

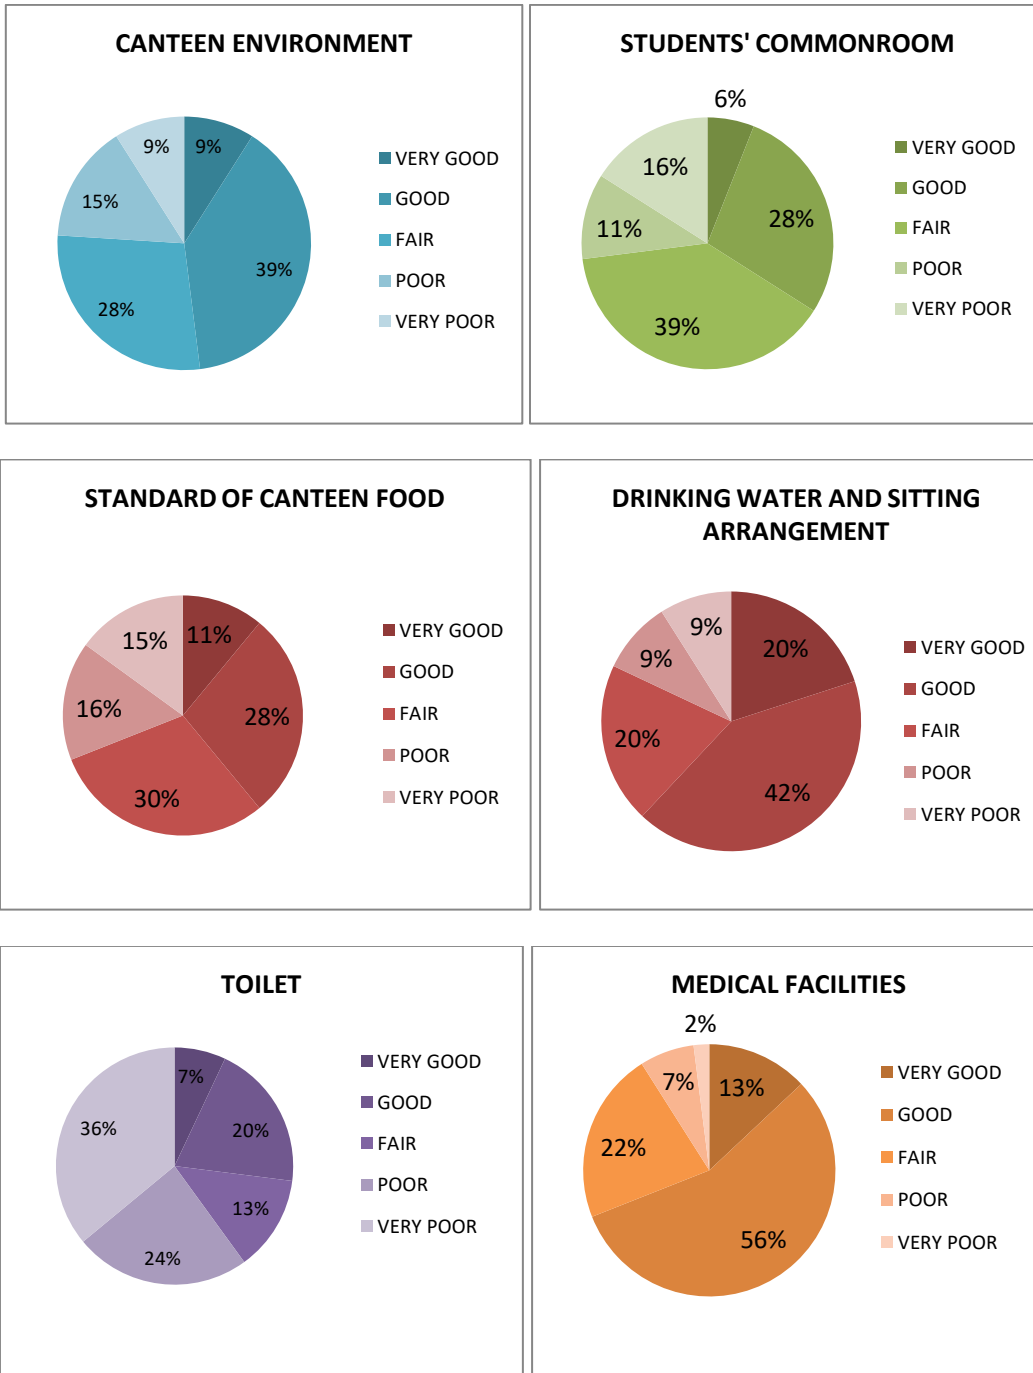

### **Relationship with the Students' Union**

Student feedback regarding the Students' union shows that about half the students participate in the process of election while the rest are non voters.

### **Feedback regarding college infrastructure**

This section deals with students' perception regarding college infrastructure such as canteen, drinking water, common room, class rooms, medical facilities and so on.

Analysis of the feedback shows that students are moderately satisfied with various aspects of college infra structure.

**Students’ relationship with the management, faculty and non teaching staff**

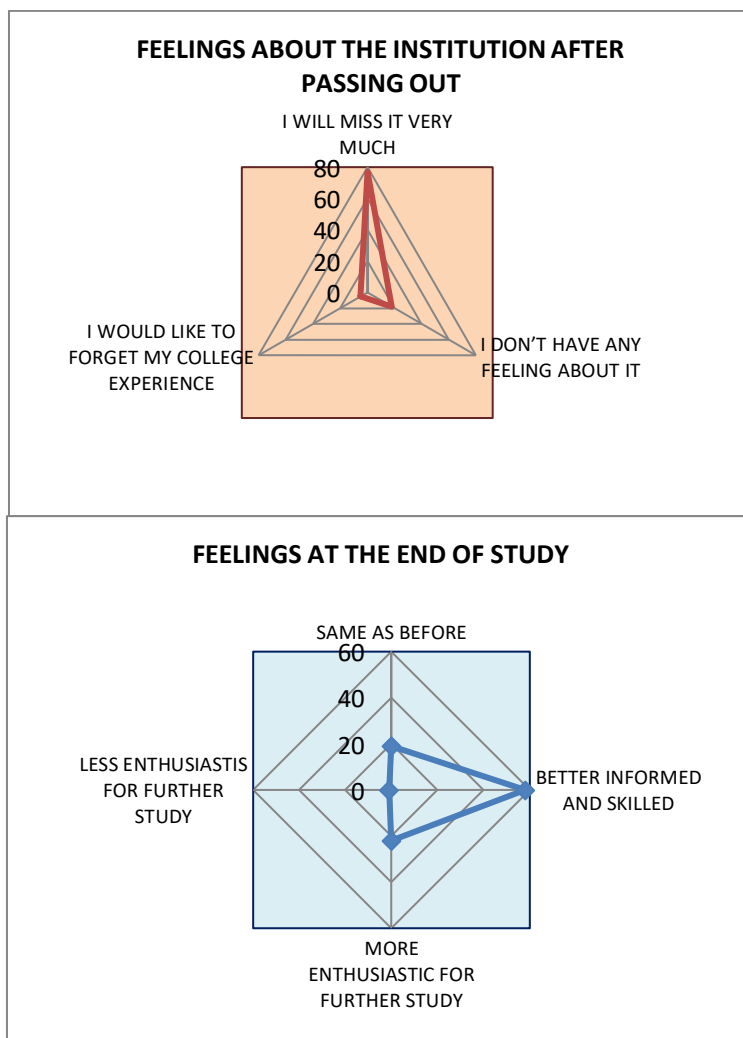

1. Interaction with administrative authorities: nearly half the students feel that interaction with the management can be categorised as good while 13% are of the opinion that the interaction is poor or very poor.
2. Student-teacher relationship in the departments: students show a very high level of appreciation in this respect. 51% of the students feel they share a very good relationship with their teachers while 40% feel they have a good relationship.
3. Relation with the administrative offices A moderately high level of satisfaction is expressed by the students and 51% of the students feel that the offices are helpful.

## Feelings about the institution

Analysis of feedback regarding students' feelings about the institution as well their perception regarding the outcome of the knowledge gained and training received during the programme of study shows a high level of satisfaction. Responses show that students develop close ties with the institution since 80% of the students have expressed the opinion that they will miss the institution very much after they leave.

Regarding their learning outcomes 60% of the students feel that they will leave the institution better informed and skilled while more than 10% are found to have developed an aptitude and liking for further study.

## Concluding remarks

Overall analysis of the feedback response collected from the students shows that students are mostly satisfied with the academic aspects though there is always scope for further improvement. The use of audio visual aids in classroom teaching needs to be done more frequently. Opinion regarding college infrastructure especially the canteen and toilets show that there is need for improvement. Student participation in extracurricular activities needs to increase and measures should be adopted to encourage students in this regard. The same is true of relationship with the Students' Union. Students need to be made aware of the existence and activities of the Students' Union. Finally students have expressed their warmth and deep feelings for the institution of which they are a most vital part.

## ANNEXURE III

### BEST PRACTICE I

#### **1. Title of the Practice**

***Installation of the rainwater harvesting unit: An initiative towards environmental consciousness.***

#### **2. Goal**

The institution aims to develop environmental awareness among the students as an integral part of their holistic development as responsible human beings. Sustainable development and resource conservation are necessary for prevention of the depletion of natural resources of the earth and the survival of future generations.

Rain water harvesting is one such effort where rain water is collected and stored for reuse. Roof top rain water harvesting is a common technique adopted in urban areas to overcome water shortage or recycle rain water.

#### **3. The Context**

Daily water requirements for the three colleges run in the campus are huge since the combined student strength exceeds ten thousand. Therefore it was felt that the installation of a rainwater harvesting unit in the college could serve the dual objectives of enhancing environmental consciousness among the students as well as augmenting the water requirements of the institution. The harvested water could be used for different purposes. Thus installation of the project would mean that the college would take a step forward in the performance of its institutional responsibility towards a more sustainable future.

#### **4. The Practice**

As a first step towards implementation of the proposal for installation of the roof top rainwater harvesting unit the institution invited a team of experts from the Institute of Environmental studies and Wetland Management, Department of Environment, Government of West Bengal for investigation of the feasibility of the project and providing expert advice regarding the design and location of the unit. Subsequently a team visited the college to explore the feasibility of the installation of such a unit. On the basis of the visit they provided a plan for the location of the storage reservoirs and an estimate of the costs involved. Their plan suggested that the water could be collected from the roof top and stored in two 1000 litre tanks. The collected water could be used primarily for gardening at the beginning. The proposal was approved by the management of the three colleges and funds were allocated for the construction of the unit

#### **5. Evidence of Success**

Construction of the rooftop rainwater harvesting unit was completed in September 2015. The water is primarily collected during the rainy season and is used for gardening. A proposal has been placed for utilization of the rainwater for medicinal plants.

#### **6. Problems Encountered and Resources Required**

Lack of a suitable space for the location of the storage tanks was the major problem encountered at the beginning. However the team of experts from Institute of Environmental studies and Wetland

Management suggested the possible location which was finally accepted by management of the three colleges.

Funds required for the installation of the unit were allocated on the basis of the estimate provided by the expert team and shared equally by the three colleges operating in the premises.

## BEST PRACTICE II

### **1. Title of the Practice**

#### ***Initiation of online student feedback response***

### **2. Goal**

Student feedback response is one of the most important mechanisms for ensuring quality in the functioning of an academic institution. Thus feedback response is collected regularly from the students with the objective of enhancing the teaching, learning and evaluation processes in the institution, to assist the process of self evaluation of the teachers as well as to explore the ideas and expectations of the students regarding college life. For ensuring quality performance of the institution it is necessary that students are able to give their honest response and at the same time the process should be free from any kind of bias.

### **3. The Context**

Traditionally feedback response was collected from the final year students manually. It was gradually felt that the process was extremely cumbersome, time consuming and involved a lot of paper work. Therefore it was felt that conversion to an online system of collecting student feedback response would ensure a speedy and hassle free method of obtaining the response. Teaching time would not be wasted and analysis of the data would be bias free.

### **4. The Practice**

Feedback response is collected from the students for the institution as a whole including teaching learning, college infra structure and all the different aspects of the functioning of the institution as well as opinion regarding individual teachers. A committee reviewed the existing format of the questionnaire and the service provider for the college website was entrusted with developing the online system which the students could access through the website with a unique id and password. The teachers were oriented about the procedure and they in turn oriented the students who were asked to submit their response online.

A report of the response obtained was prepared and submitted to the Principal for evaluation and necessary action.

### **5. Evidence of Success**

The response obtained was limited with respect to some of the Departments. However analysis of the feedback data was greatly simplified and cumbersome paper work was avoided.

### **6. Problems Encountered and Resources required**

A major problem encountered was the economic diversity of the students. Many students belong to economically disadvantaged sections of the society and do not possess computer and internet facilities at home. In addition some of the students are accustomed to the vernacular and are not so

conversant with the use of computers. Keeping these problems in mind online student feedback was introduced in the session 2015-16 on a trial basis. Response obtained was limited for some the departments. A proposal has been placed regarding provision of computer and internet facilities within the college for students who face difficulties in this regard.

The system was implemented through the college website and the funds required were sanctioned by the management
